

Nursery

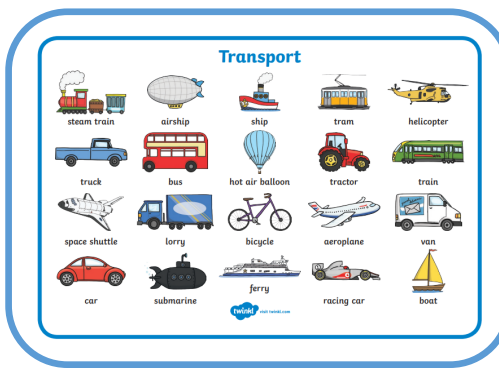

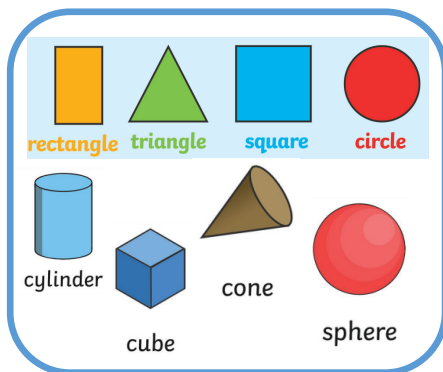

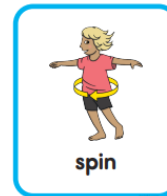

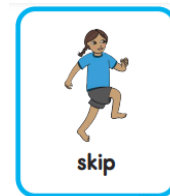

Spring 1

I wonder, what different ways can we move?

This half term, we are going to be exploring how things move. We are going to begin by investigating 2D and 3D shapes; looking at their properties and seeing if they can move at all. We will then move onto exploring how our bodies move and investigate different ways to move to music; thinking about how we keep our bodies healthy. We will then move onto looking at different types of transport and how they move, We will explore their significance to us and think about how they help us.

## Key Vocabulary
