

# Nursery Summer 1

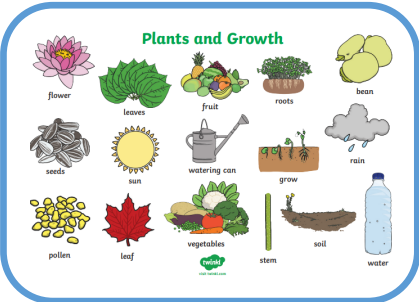

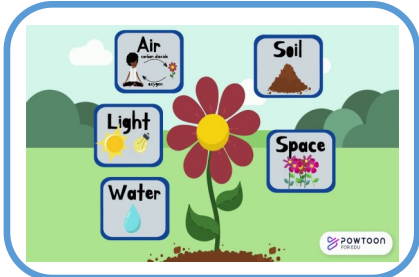

I wonder, how do we look after our world?

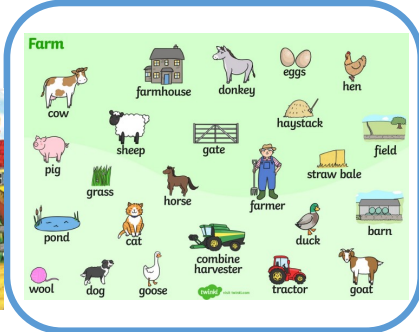

This half term, we are going to be investigating our wonderful world. We are going to begin by looking at the wonderful things that grow in our natural environment. We will then plant and care for our own seeds; learning what plants need to survive. We will then move on to exploring minibeasts that live in our environment. We will go bug hunting, identify and naming different minibeasts. Finally, we will be looking at farming and how this helps us in our everyday lives, by providing food. We will also look at the role of the farmer.

## Key Vocabulary

Gardening	The activity of planting and taking care of a garden.
Seed	The small part of a flowering plant that grows into a new plant.
Plant	Living things that grow from the soil.
Flower	The part of the plant that produces seeds or fruit.
Livestock	Farm animals.
Farmyard	Land surrounded by farm buildings.
Minibeast	A small invertebrate animal such as an insect or spider.
